

Hotkeys Setup Manual for TRIUMPH CLOUD (adding the shortcut manager to the Chrome browser)

Compatible with TRIUMPH IWB Driver (MT78, 89 SLIM Line).

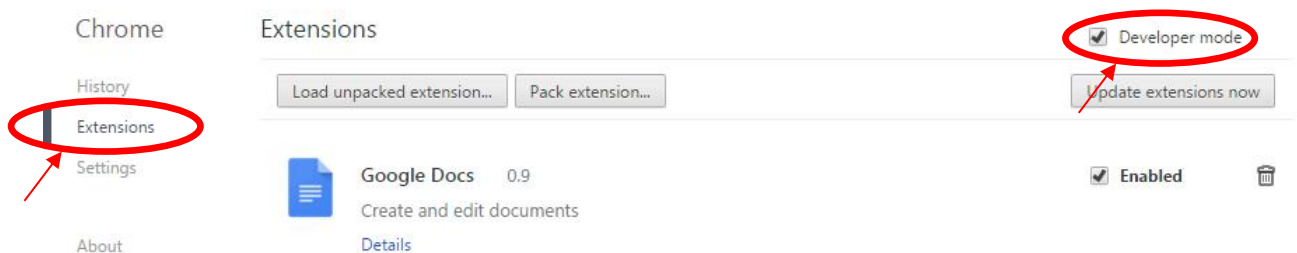

1. Please download the Shortcut manager (SM) to the Chrome by click on the following link [Shortcut manager for TRIUMPH CLOUD](#) and open the file, where have you downloaded it.

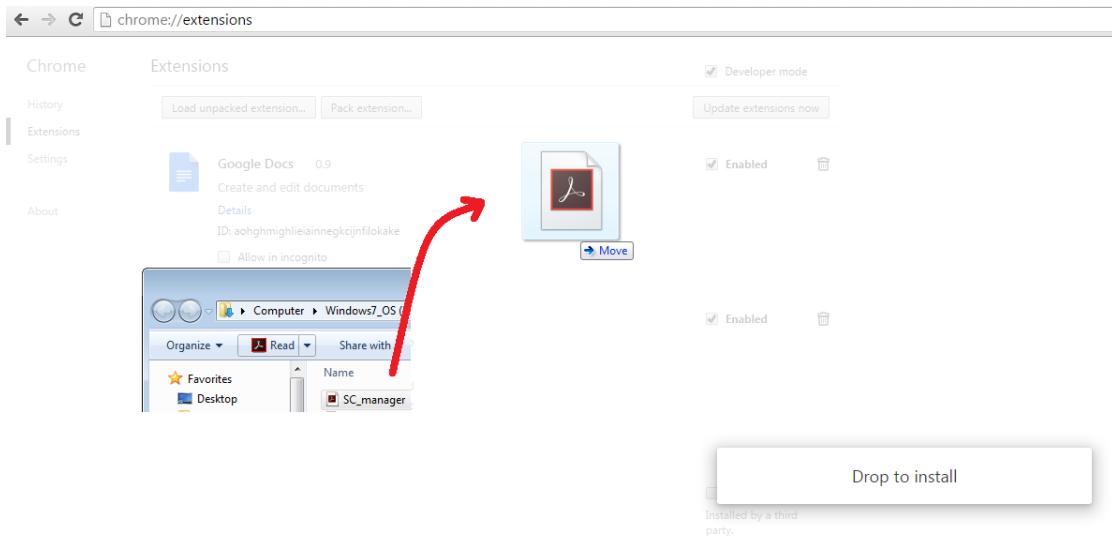

2. Now please open the CHROME browser and click on settings.

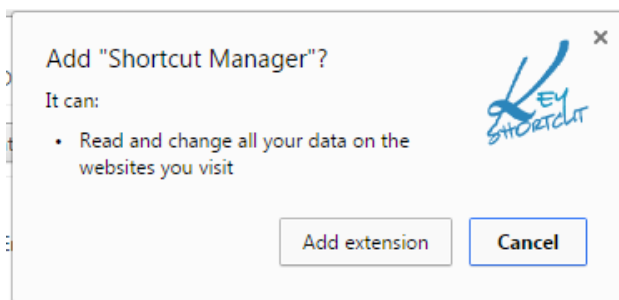

3. Click to the tap “Extensions” and then tick the checkbox “Developer mode”

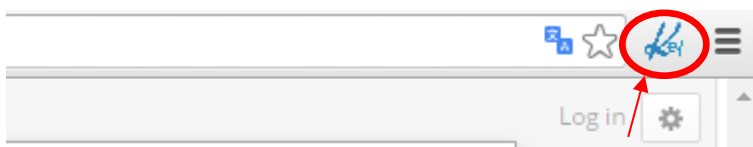

4. Now we are ready to drag and drop the downloaded **SM manager** file onto this **Chrome Extensions** page

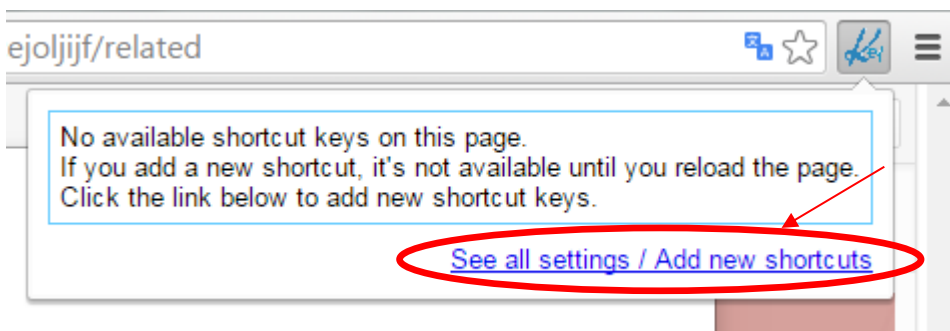

5. Now click on Add extension

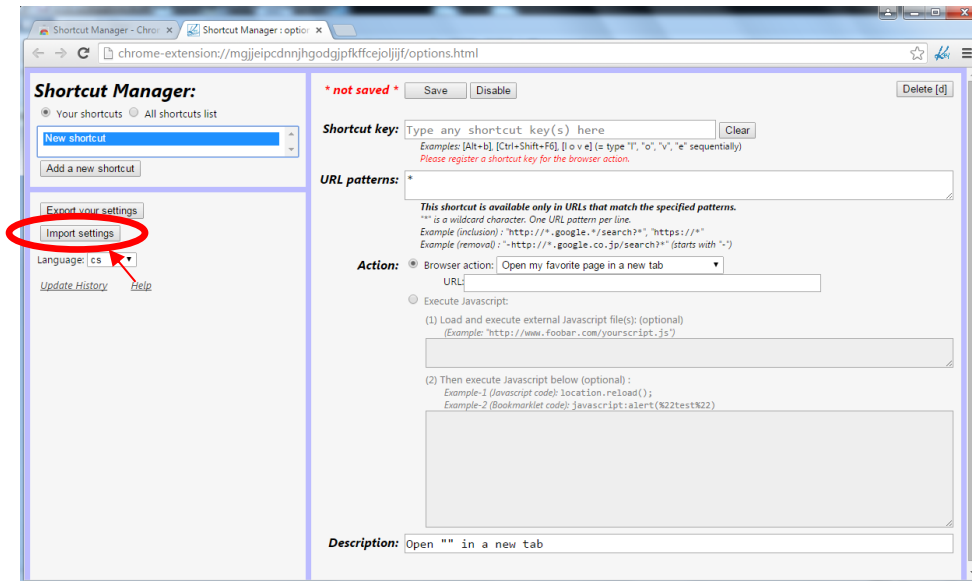

6. The SM has been added. Then click on the **SM icon**.

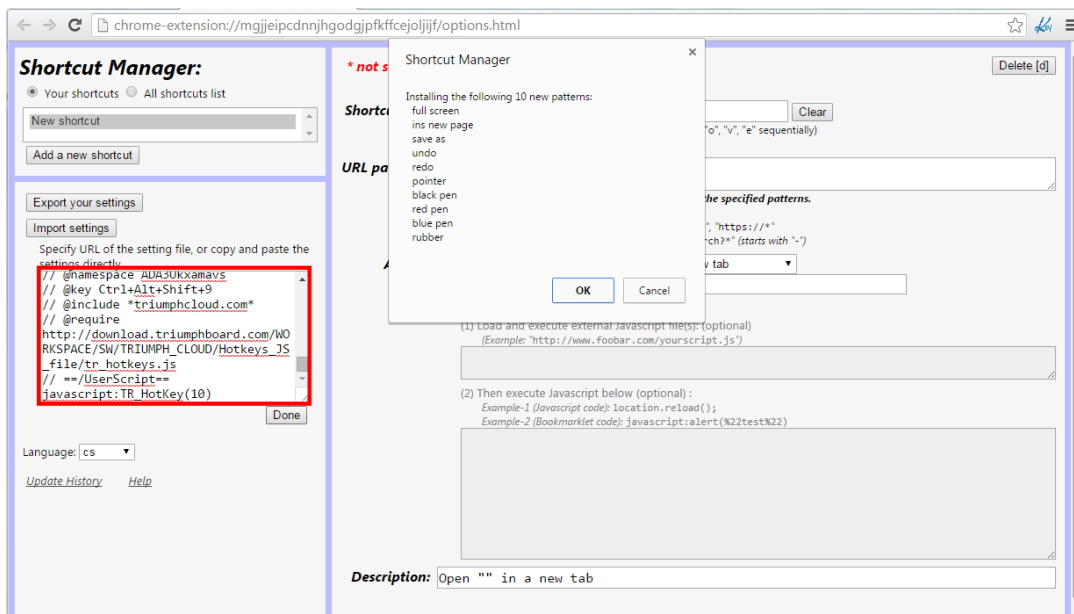

7. After click on the SM icon will bellow appear the window, then click on **See all settings / Add new shortcuts**

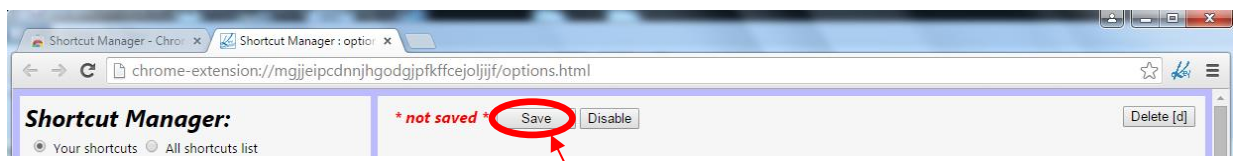

8. This window will appear. Please click on **Import settings** button.

9. Now please copy the source code in the annex (in the end of this document) inside the Import settings white box and click on **Done**. 10 Hotkey shortcuts will be added and click OK.

10. Then please Save the settings

11. From now you can use the Hotkeys in the TRIUMPH CLOUD

Annex
