

PORTABLE SLIM

TRIUMPH BOARD PORTABLE SLIM is a mobile interactive device which instantly turns a traditional whiteboard or even wall surface into an interactive whiteboard, using infrared and ultrasound positioning technology.

The principle is similar to calculating the distance of a storm by counting the time between lightning and thunder; with the TRIUMPH BOARD PORTABLE SLIM this is done by measuring the speed of light and sound transmitted by an electronic pen. The interactive electronic pen comes with the board and has buttons simulating left and right mouse clicks. The electronic pen is powered by standard batteries available everywhere.

TRIUMPH BOARD PORTABLE SLIM comes with two „HOTKEY“ labels for simple access to the basic functions of the TB Comenius and RM Easiteach annotation software that encourages the presenter to concentrate on the presentation rather than controlling the device. The device has a USB interface to connect the board to a PC in seconds.

TRIUMPH BOARD PORTABLE SLIM can also be upgraded with a „Wireless upgrade Kit“ with an automatic wireless radio connection (2.4 GHz) using a simple USB receiver in your PC! TRIUMPHBOARD PORTABLE SLIM is compatible with Windows 8, Windows 7, Windows Vista, Windows XP, Linux and Mac OS.

Features

- Projection screen up to 125"
- Low weight and small dimensions for good mobility
- Flexible installation in any position with 3 in 1 adaptor (magnet, suction cups and screw options)
- Ergonomic electronic Stylus (ePen) with improved durability
- Hotkey sticker for quick access to the most used software functions
- MS Office original annotation tools compatibility
- TB Comenius dual writing and educating software for full annotation

Specification

EAN:	8592580091360	Transmission speed:	80 Points Per Second
Active Screen Size (mm):	21" - 125"	Response time:	over 200 Lines per Inch
Technology:	Infrared and ultrasonic	OS Platform:	Windows 8 / Windows 7 / Vista / XP, Linux, MAC
Ultrasonic frequency:	40 KHz	Power Supply / Consumption:	USB 5V, Operating: 50 mA
IR Frequency:	38 KHz	Sensor Unit Net Weight:	70 g
Radio frequency:	2,4 GHz	Sensor size without packing:	212 x 41,4 x 14,5 mm
Resolution:	9600 x 9600	Product weight incl. packing:	1,1 kg
Accuracy:	1.5 mm	Packing size:	313 x 61 x 153 mm
Interface to PC:	USB 2.0 or 2.4 GHz Wireless		

TB Comenius Software

To maximize the interaction opportunities, TRIUMPH BOARD PORTABLE SLIM is supplied with TB Comenius software that provides tools and features specifically designed to enhance the interactive lessons with Microsoft Office & teaching software. TB Comenius together with TRIUMPH BOARD PORTABLE SLIM interactive whiteboards allows one to simultaneously write, perform mouse functions, erase and manipulate and move objects on the interactive whiteboard surface and no special tools are required.

TRIUMPH BOARD PORTABLE SLIM and TB Comenius bring classrooms to life and enable you to create your own lesson plans. Edit your lessons by using the multi-functional drag and drop facility. Grab and group objects together, cut and paste them to maximize teaching support. TB Comenius supports annotating and saving your notes directly into several software applications, including MS PowerPoint, Word, Excel... TB Comenius is localized into 24 languages!

Software features

- Create, edit and annotate even over live movies
- Clipart images, hyperlink, zoom
- Arrange, transform, fill and group objects
- Modify and customize shapes to your requirements
- Screen capture from the PC and insert your own images
- Full Screen Tools, Geometry drawings, Protractor, Ruler, Compass
- Document camera
- And much more

My Script Stylus

For any text input that is needed the user can either invoke an on-screen keyboard or utilize the best-in-class handwriting recognition software MyScript Stylus, which is included in the package. These input options avoid the need to return to the computer to enter text into programs. MyScript Stylus converts handwritten text and drawings entered through a pen, a stylus or a finger into their digital counterpart. Available in 80 languages!

RM Easiteach Next Generation

GenerationThe RM Easiteach Next Generation is a complete whole class teaching and learning application that puts users in the driving seat for creating and delivering engaging lessons and resources. The tools within RM Easiteach are rich and powerful but easy to use, removing barriers and allowing teachers and students to make the most of their classroom interactive whiteboards. Built-in widgets and multimedia assets in a range of topic areas help fuel ideas and bring lessons to life.

Create and prepare resources well in advance of lessons to use RM Easiteach as a high-end narration tool to support classes. Its wide range of content can be used or adapted to suit users' needs. A powerful and flexible software application for creating and delivering motivational, interactive lessons, RM Easiteach provides a wide range of cross-curricular teaching tools in both primary and secondary contexts. RM Easiteach has been designed specifically for education and whole-class teaching, and can be used throughout schools across a wide range of subjects.
