## INTRODUCTION

The 5-Megapixel Document Camera is the ideal tool for presentations, image capturing and video recording. With this visual presenter and your computer, you can capture real-time images of 3D objects (up to 8.3 x 11.7 x 15" in size), magazines, books, documents, pictures and business cards and present through a monitor or projector. The unique down-facing lens makes repetitive image capturing, demonstrations, tutorials and lectures comfortable and simple. Along with these great features, use the included Media Impresion HD software with your Document Camera A405 to take snapshots or record videos of just about anything, easily edit both images and videos with the advanced editing tools, plus enjoy Optical Character Recognition (OCR) function that scans your captured image and extracts text, making it easy to share information without retyping. The Document Camera A405 combines all the great features of today's most popular image capturing devices into one powerful product.

#### SPECIFICATIONS
