

Stand with Easy Lift System

The TRIUMPH BOARD STAND with Easy Lift System for the TRIUMPH BOARD interactive whiteboards has a lifting system with an adjustable height of 50 cm. The lifting system includes a projector arm so that an Ultra Short Throw projection (TRIUMPH BOARD PROJECTORS PJ2000 /PJ3000) can be used moving together with the board. Wall mounts which anchor it to the wall gives even more stability.

The assembly and aluminum posts come with cover plates in the color of the anodized aluminum. The mount has been designed to provide maximum convenience, with quiet and smooth board movement throughout its lifetime. The assembly includes a solid aluminum shelf for storing pens which doubles as a sturdy handle for easily lifting and lowering the board.

Features

- The stand can be wall mounted
- Quiet operation and easy handling
- Maintenance-free operation
- Durable components for long use
- Professional aluminum construction
- Sleek modern design
- Easy installation
