

A405 Document Camera

The 5-Megapixel Document Camera is the ideal tool for presentations, image capturing and video recording. With this visual presenter and your computer, you can capture real-time images of 3D objects (up to 8.3 x 11.7 x 15" in size), magazines, books, documents, pictures and business cards and present them through a monitor or projector.

The unique down-facing lens makes repetitive image capturing, demonstrations, tutorials and lectures convenient and simple. Along with these great features, use the included CamScanner NimoDoc software with your Document Camera A405 to take snapshots or record videos of just about anything, easily edit images with the basic editing tools, plus enjoy the Optical Character Recognition (OCR) function that scans your captured image and extracts text, making it easy to share information without retyping.

The Document Camera A405 combines all the great features of today's most popular image capturing devices in one powerful product.

Features
