

TRIUMPH BOARD Presents Next Generation of UHD Interactive Flat Panel Displays

Orlando, June 14, 2017 – TRIUMPH BOARD today introduced the next generation of the Interactive Flat Panel Displays, the most powerful and advanced displays in the history of TRIUMPH BOARD.

The new TRIUMPH BOARD 55", 65", 75", 86" and 98" IFP UHD models are an effective tool for showing lessons or presentations interactively in any classroom or meeting room. The IR LED optical technology allows 32 finger touch – up to 32 users can draw simultaneously, using either fingers or styluses. The open cell D-LED backlight technology delivers superb picture quality, increasing the reliability 10-fold. The embedded Android board with the Android 5.0 system lets the screen be used even without a PC, for controlling the system as well as basic annotation and internet browsing. A new "SLIM" and sleek design reduces the product weight significantly.

The new, highly-recommended, optional built-in OPS PC or OPS PC Pro with Intel® Core™ i3 and i7 Processors, SSD disks and Microsoft Windows 10 Pro (OEM), with multiple language options and preinstalled applications, delivers top-of-the-line performance for a zero-compromise experience.

The combination of "TRIUMPH" hardware and the extensive software package included accelerates lessons and presentations through improved user collaboration, engagement, and participation.

A wide range of accessories such as LiftBoxes or manual and electric mobile stands make a perfect solution!

Features:

- UHD Resolution
- Multi-Touch (32 touch input)
- Slim & Sleek white design
- Built in Android 5.0 System
- Wi-fi dongle for Android
- Powerful OPS latest Intel technology PC's

- TRIUMPH CLOUD - online annotation software with "myfiles" cloud account and free student accounts
- DisplayNote - collaboration and content sharing software with classroom management (cloud)
- E-share - wireless and easy content sharing software
