# Sleek & Modern Design

Purposely developed for the most demanding users.

With 15mm super-slim bezels, minimalistic front I/O selection, reduced depth and executed in stunning black, the Interactive Flat Panel looks exceptional and suits any classroom, board room or meeting room.

## QUICK UNIFIED TOOLBAR

The Interactive Flat Panel's new interface makes navigation simple, with the functions most used conveniently located in a single hub. The toolbar can be set up with the most frequently used apps and 3 tools of your choice.

**Record** - Record your Android screen displaying from any source.

**AirClass** - Easy to use web-based voting system for meetings and classes.

## ANDROID 11

The Cortex Quad-Core chipset solution with Android 11 brings unparalleled performance-increasing computing power, security, reliability, and image processor capability, all in sharp 4K ULTRA HD quality. Seamlessly open multiple applications on the screen and multitask without hassle.

## REMOTE MANAGEMENT (optional)

The Interactive Flat Panel supports a convenient web-based remote management system. It enables cluster management functionality for your Interactive Flat Panel. Options include status monitoring, panel grouping, time and channel switching, volume control, and emergency information bulletins. Everything is available in one, unified space.

## ANTIBACTERIAL FEATURES

The TRIUMPH BOARD Interactive Flat Panel includes specially coated anti-reflection glass with anti-bacterial pens & buttons that kills germs that can accumulate on the surface and prevents cross-infection during presentation or class.

## Next Generation Writing Experience

Advanced IR touch technology enables responsive touch. ZERO (0) air gap between panel and glass, and 1,5 mm touch accuracy ensures a natural, fluid writing experience. Write with different colors simultaneously, erase with your palm. Collaborate easily without limitations.

ENERGY STAR  
Certified Product

Note

## Easy Annotation

Packed with useful features, the Note application brings a powerful solution for interactive meetings and classes.

Powerful Software included Android Object Recognition - handwriting, object and shape recognition.

Collaboration in different colors at the same time.

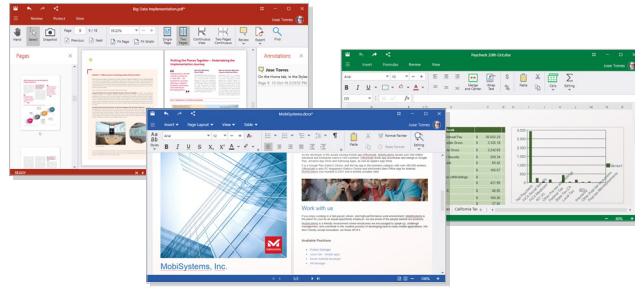

Add pictures to Note, from a USB flash disk to browser simply drag and drop.

## All-in-one Office Application

With OfficeSuite you can easily create and edit any office document on your IFP unit. Share, annotate, collaborate, digitally sign and do much more, including PDF files.

## TeamViewer QuickSupport

Get remote support for your interactive panel – whenever you need it.

Simply open QuickSupport on your Interactive Flat Panel PRO and you can receive technical support at a moment's notice.

QuickSupport enables a support technician to remotely access, control, and view your Interactive Flat Panel PRO for fast troubleshooting.

## Wireless Content Sharing Software

Share your screen more effectively and conveniently in the meeting room or classroom, cable free. Bytello Share allows smooth streaming of audio & video files, mirroring of content from your favorite device to the Interactive Flat Panel and much more.

# mozaBook CLASSROOM

Optional / Educational Content Software

The mozaBook CLASSROOM software includes spectacular interactive content, built-in skill-developing, illustrative and virtual lab applications, even in 3D, which helps stimulate students' interest and boost their acquisition of knowledge.

More than 100 thematic applications provide a unique way of reviewing and deepening acquired knowledge.

The software supports touchscreen functions, and its user interface can adapt to the display size.
