The powerful interactive flat panels with Android 13

The BLACK Series was precisely developed for educational and business environments, where learning, coaching, and meetings are daily. With an interactive panel, you will improve your interaction with your teammates, and the joint session will bear fruit soon.

The Black Series offers an exceptional interactive experience characterized by innovation, seamlessness, and reliability. With its user-friendly interface and advanced features, the panels aim to facilitate effortless collaboration and engagement, ensuring easy interaction with varied content and applications.

Android 13 / 8 GB & 64/128* GB

Zero Bonding 0 mm Gap

Superior IR Touch / Up to 40-inputs

Anti-bacterial Pens & Buttons

USB-C PD & Display Port Support

Wi-Fi/Bluetooth Built-in & Hotspot

Split Screen & Picture in Picture

OPS PC Slot

Remote Management (optional)

Sensor Box (optional)

Sleek & Modern Design

Developed purposely for the most demanding users.

With 15mm super-slim bezels, minimalistic front I/O selection, reduced depth, and executed in stunning black, the Interactive Flat Panel looks exceptional and suits any classroom, boardroom, or meeting room.

ANDROID 13

The Cortex Quad-Core chipset solution with Android 13 brings unparalleled performance-increasing computing power, security, reliability, and image processor capability, all in sharp 4K ULTRA HD quality. Seamlessly open multiple applications on the screen and multitask without hassle.

QUICK UNIFIED TOOLBAR

The Interactive Flat Panel's interface makes navigation simple, with the most used functions conveniently located in a single hub. The toolbar can be set up with the most frequently used apps and up to 3 tools of your choice.

Record - record your Android screen displaying from any source.

AirClass - a convenient web-based voting system for meetings and classes.

SPLIT SCREEN

Function for two independent screen parts with different Android applications.

PICTURE IN PICTURE

Function to display a window from another input (e.g. HDMI).

ANTIBACTERIAL FEATURES

The TRIUMPH BOARD Interactive Flat Panel includes specially coated anti-reflection glass with antibacterial pens & buttons that kill germs that can accumulate on the surface and prevent cross-infection during the presentation.

Next Generation Writing Experience

Advanced IR touch technology enables responsive touch. ZERO (0) air gap between panel and glass, also touch accuracy of 1 mm ensures a natural, fluid writing experience. Write with different colors simultaneously, and erase with your palm. Collaborate easily without limitations.

Note

Easy Annotation

Packed with useful features, the Note application brings a powerful solution for interactive meetings and classes.

Android Object Recognition - handwriting, object and shape recognition.

Collaboration in different colors at the same time.

TeamViewer

TeamViewer QuickSupport

With QuickSupport you receive remote technical support for your interactive panel whenever you need it.

Bytello Class

Educational Software

Offers a comprehensive suite of tools for creating interactive lessons, sharing content with students, and facilitating collaboration and engagement in the classroom. Its integration with the cloud and support for interactive elements make it a valuable resource for educators looking to enrich student learning experiences.

OfficeSuite

All-in-one Office Application

Solution for creating, editing, sharing, annotating, and signing office documents including PDF files on your IFP unit, enhancing productivity, collaboration, and workflow efficiency.

Bytello Share

Wireless Content Sharing Software

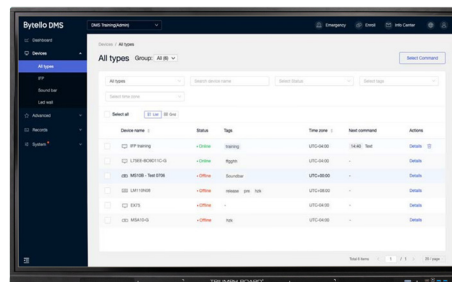

Share your screen more effectively and conveniently in meetings or lessons, cable-free. Allows smooth streaming of audio & video files, mirroring content from your favorite device to the Interactive Flat Panel. Support without the need to install client apps AirPlay, Miracast Chromecast, Windows+K, and much more.

Bytello DMS

Remote Management Software (optional)

Provides a comprehensive set of management tools and features specifically designed to simplify the management of IFPs in educational institutions and other campus environments, with its cluster management functionality, status monitoring, grouping options, remote control capabilities, and information bulletin support.

Bytello DMS enhances efficiency, control, and functionality for administrators overseeing IFPs across the sites.

mozaBook™
interactive classrooms

mozaBook CLASSROOM

Educational Content Software (optional)

Over 100 thematic applications provide a unique way of reviewing and deepening acquired knowledge.

The software supports touchscreen functions, and its user interface can adapt to the display size.

Windows 11

Includes spectacular interactive content, built-in skill-developing, illustrative and virtual lab applications, even in 3D, which helps stimulate students' interest and boost their acquisition of knowledge.

HDMI OUT

LAN 1000 Mbps

Wi-Fi & Bluetooth Slot

USB Type-C

USB 3.0

Wide range of connectivity

Optional Accessories

Stands

TRIUMPH BOARD Interactive Flat Panel includes a fixed wall mount. However, for those seeking more flexibility and mobility, optional Vogel's RISE stands and lift systems present an excellent solution.

OPS PC and OPS PC PRO

These are excellent optional solutions for extending the capabilities of an interactive flat panel (IFP) by providing seamless access to Windows OS. Allows users to leverage their knowledge of Windows and access a wide range of applications and software.

Speakerphone & 4K Webcam

Integrating an optional 13-megapixel web camera and an optional speakerphone with an IFP would significantly enhance its capabilities for video conferencing.

Sensor Box for IFP

Featuring NFC lock, PIR detection, and environmental functions such as temperature, humidity, PM 2.5, and CO2 monitoring. An optional sensor enhances user experience, improves environmental monitoring, and contributes to a safer and more comfortable indoor environment.

TRIUMPH BOARD reserves the right to change the product specifications without notice.
