

The ultimate interactive flat panel built for excellence

The BLACK PRO Series is the pinnacle of our interactive panel lineup, built for education and businesses where excellence and collaboration are essential. Its premium features enhance teamwork and productivity, paired with flawless performance and reliability.

Powered by Bytello AI, it offers intelligent tools for solving equations, language support, and smart enhancement, making every interaction smarter and more engaging.

Now running on Android 16 and Google EDLA certified, it provides secure access to licensed Google Play apps for a familiar and powerful digital experience in every classroom or meeting room.

USB-C with PD & DP

Wi-Fi 6 & Bluetooth Built-in

2 x 25W Front Speakers
+ 20W Subwoofer + Mic Array x 8

Remote Management (1 year)

Adaptive Learning with AI

Sleek Frame & Modern Design

Developed purposely for the most demanding users.

With super-slim bezels, minimalistic front I/O selection, reduced depth, and executed in stunning black, the BLACK PRO Series looks exceptional and suits any classroom, boardroom, or meeting room.

ANDROID 16

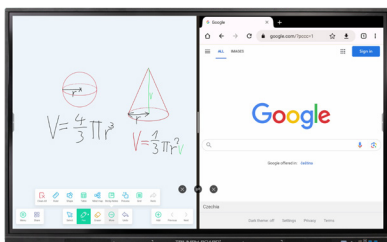

The Cortex Octa-Core chipset solution with Android 16 brings unparalleled performance-increasing computing power, security, reliability, and image processor capability, all in sharp 4K ULTRA HD quality. Seamlessly open multiple applications on the screen and multitask without hassle.

QUICK UNIFIED TOOLBAR

The Interactive Flat Panel's interface makes navigation simple, with the most used functions conveniently located in a single hub. The toolbar can be set up with the most frequently used apps and up to 3 tools of your choice.

Record - record your Android screen displaying from any source.

AirClass - a convenient web-based voting system for meetings and classes.

SPLIT SCREEN

Function for two independent screen parts with different Android applications.

PICTURE IN PICTURE

Function to display a window from another input (e.g. HDMI).

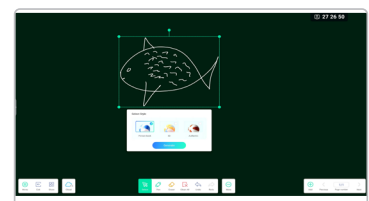

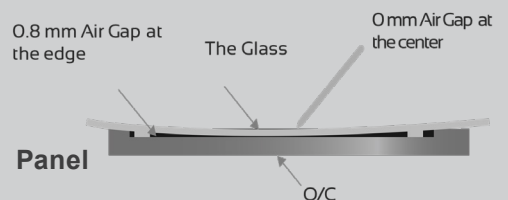

NOTE

Easy Annotation

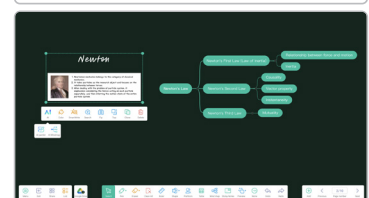

Packed with useful features, the Note application brings a powerful solution for interactive meetings and classes.

Next Generation Writing Experience

Advanced IR Touch Zero Bonding enables responsive touch. ZERO (0) air gap between panel and glass, also touch accuracy of 1 mm ensures a natural, fluid writing experience. Write with different colors simultaneously, and erase with your palm. Collaborate easily without limitations.

Android handwriting, object & shape recognition.

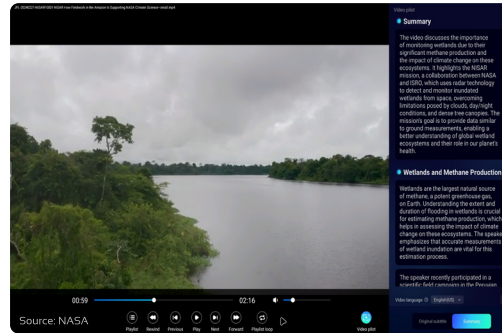

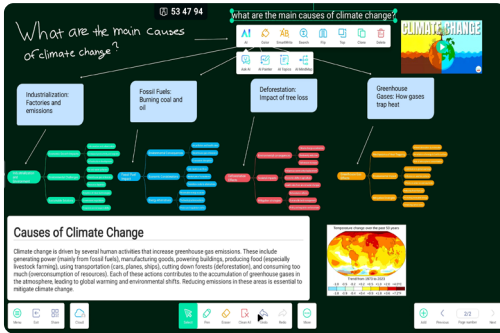

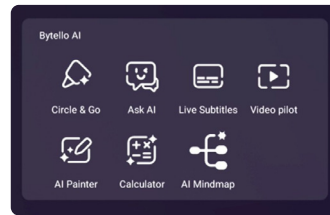

Collaboration in different colors at the same time.

Adaptive Learning with AI

Bytello AI, in collaboration with Microsoft, is rapidly enhancing AI capabilities for OS, Note, Share, Class, DMS, creating a comprehensive intelligent software ecosystem for education. Functions: Ask AI, Circle & Go, Video pilot, Calculator Pro, live subtitles, handwriting, etc.

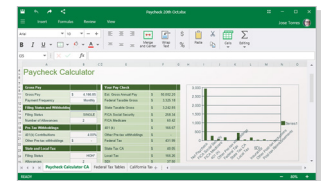

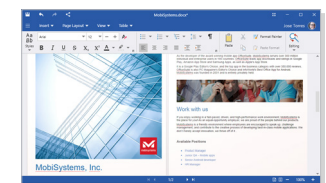

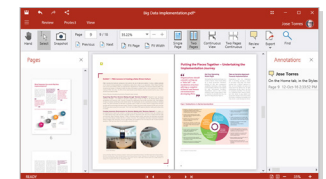

TeamViewer QuickSupport

With QuickSupport you receive remote technical support for your interactive panel whenever you need it.

All-in-one Office Application

Solution for creating, editing, sharing, annotating, and signing office documents including PDF files on your IFP unit, enhancing productivity, collaboration, and workflow efficiency.

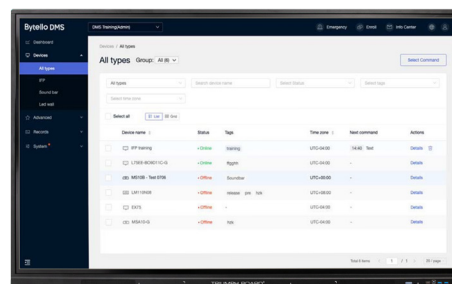

Wireless Content Sharing Software

Share your screen more effectively and conveniently in meetings or lessons, cable-free. Allows smooth streaming of audio & video files, mirroring content from your favorite device to the Interactive Flat Panel. Support without the need to install client apps AirPlay, Miracast Chromecast, Windows+K, and much more.

Remote Management Software (1 year subscription)

Provides a comprehensive set of management tools and features specifically designed to simplify the management of IFPs in educational institutions and other campus environments, with its cluster management functionality, status monitoring, grouping options, remote control capabilities, and information bulletin support.

Bytello DMS enhances efficiency, control, and functionality for administrators overseeing IFPs across the sites.

mozaBook CLASSROOM

Educational Content Software (optional)

Over 100 thematic applications provide a unique way of reviewing and deepening acquired knowledge.

The software supports touchscreen functions, and its user interface can adapt to the display size.

Windows & Android

Includes spectacular interactive content, built-in skill-developing, illustrative and virtual lab applications, even in 3D, which helps stimulate students' interest and boost their acquisition of knowledge.

HDMI OUT

LAN 1000 Mbps

Wi-Fi & Bluetooth Slot

USB Type-C

USB 3.0

Display Port

Wide range of connectivity

Optional Accessories

Stands

TRIUMPH BOARD Interactive Flat Panel includes a fixed wall mount. However, for those seeking more flexibility and mobility, optional Vogel's RISE stands and lift systems present an excellent solution.

OPS PC and OPS PC PRO

These are excellent optional solutions for extending the capabilities of an IFP by providing seamless access to Windows OS. Allows users to leverage their knowledge of Windows and access a wide range of applications and software.

Speakerphone & 4K Webcam

Integrating an optional 13-megapixel web camera and an optional speakerphone with an IFP would significantly enhance its capabilities for video conferencing.

Sensor Box for IFP

Featuring NFC lock, PIR detection, and environmental functions such as temperature, humidity, PM 2.5, and CO2 monitoring. An optional sensor enhances user experience, improves environmental monitoring, and contributes to a safer and more comfortable indoor environment.

TRIUMPH BOARD reserves the right to change the product specifications without notice.
